

SPINAL CORD SOCIETY

NORTHWEST CHAPTER

13TH ANNUAL

Charity Golf Tournament
 Mill Creek Country Club
 Monday June 16, 2008

Mr. Arnold Palmer
 to the supporters of the
 Spinal Cord Society

I am pleased once again to extend my congratulations and best wishes to the Northwest Chapter of the Spinal Cord Society for another successful tournament and auction at Mill Creek.

This marks the 13th year that these activities, supported so well by the participants, will help provide the much needed funding being sought by the Northwest Chapter to continue it's work in the field of spinal cord research.

Have a great day everybody!

Sincerely,

Arnold Palmer

**Please help us reach our goal:
 CURE FOR PARALYSIS**

Cure Not Care

SPINAL CORD SOCIETY

STATEMENT OF PURPOSE

SCS is a large grass roots organization linked by over 200 chapters, a monthly Newsletter, and thousands of members throughout North America and 24 other countries. Its goal is cure of spinal cord injury paralysis. It is an organization of the spinal cord injured, their families, friends, scientists and physicians who are aiming at the ultimate goal of cure through improved treatment and research.

CHANGING THE VIEW OF THE WORLD

The Spinal Cord Society heralded paralysis cure when ...scientific belief considered cure impossible because neurons would not re-grow. Dr. Charles Carson poured his energy and heart into a simple message embraced by those with spinal cord injury... ***Cure not Care.***

After years of difficult struggles and tremendous effort, the scientific and medical world now share our belief that spinal cord injury paralysis cure will occur given enough research and dedication.

It is no longer a question of "if" the cure will be found, but "when".

SPINAL CORD SOCIETY RESEARCH

The Spinal Cord Society remains focused on achieving a practical cure for chronic spinal cord injury. The Spinal Cord Society has funded cutting edge research through Colleges and Universities and has matured to the point of operating our own research facility in the United States.

Our research is funded through the support of our dedicated volunteers and public support.

Please donate to help this worthy cause.

Ways to Help:

- Become a sponsor
- Join us for golf
- Become a SCS Volunteer
- Ask your employer to match your donation
- List SCS on our United Way Pledge Card
- Donate to Washington Combined Fund Drive
- Annual Gift Giving
- Include SCS in your estate plan

SCS Members and Volunteers

Meet Marty Reilly who was injured in the summer of 1994 when he fell off a trampoline and is now a quadriplegic. He is focused on spinal cord injury cure research and was one of the founders of the Spinal Cord Society Mill Creek Charity Golf Tournament with all proceeds to research. Mary has been an electrician and an avid golfer and helping create a successful golf tournaments to raise funds for research was his goal. Pictured is Marty in right corner, his sons Chris and Andy and Mother Pat. Dad John was playing in the golf tournament.

Vehicle, sports and other injuries to the spine paralyze thousands of people each year. Their average age is 19. Millions around the world are now condemned to life in a wheelchair and a continuous succession of medical traumas to stay alive. IT CAN HAPPEN TO ANYONE, ANYTIME.

Over the past twelve years Spinal Cord Society, NW Chapter has generated \$1,250,000 for research. As a all volunteer chapter we are proud of this accomplishment and very grateful for the support of all our sponsors, donors and volunteers. We appreciate your support of our continued efforts. THANK YOU!
